

## PRESS INFORMATION

Excellent cooperative kids game

„Dream Dragon Dream“ awarded as „Top 10 Spielzeug“

The cooperative children's game „Dream Dragon Dream“ from HUCH! has received the German „Top 10 Toys 2024“ award. Every year, the German Toy Association awards prizes to the most innovative and creative toys that impress with their quality, fun and educational added value. „Dream Dragon Dream“ takes children aged 6 and over into an imaginative world in which they have to search for hidden treasures together as animal adventurers. Skill, memory and team spirit are required in order not to wake the dragon from its slumber. The lovingly designed illustrations and exciting game mechanics make the game an experience for the whole family. „We are delighted that „Dream Dragon Dream“ is a „Top 10 Spielzeug“,” says Hermann Hutter, Managing Director of HUCH! „The game supports cognitive skills such as concentration and memory and trains social skills such as communication and cooperation.“

**Short description Children's game „Dream Dragon Dream“:** The children whisper „Dream Dragon Dream“ quietly in a singsong to let the dragon continue to rest in his dreams. While the dragon sleeps, the children try to steal the dragon's treasures as adventurers. But every carelessness! every forgotten treasure wakes the dragon up a little more from his sleep! If he is still fast asleep after 3 rounds, the treasure hunt has been successful and the children win!

🕒 **Cooperative children's game with memo and real-time elements by Jean-Philippe Sahut | 6 years up for 2 – 5 players for 20 minutes.**
